

Marketing ALERT Bulletin

MP Series End of Life (EOL)

To: All iMP & iVS Series Users with MP modules
From: Artesyn Embedded Power, Marketing Group
Subject: MP EOL Clarification
Date: March 12th, 2021

Dear valued iMP & iVS Series customer,

This update is to clarify that the EOL of the MP series also affects the iMP & iVS configurations that use MP modules. These configurations are known as hybrids. Hybrid configurations have an iMP or iVS case populated with at least one MP module.

Model number examples:

iMP4-1E-4LL0-XX-X

iVS3-3D-3E-2L-2L-2W-1Q-00-A-XXX

MP Modules are two digits: 3E

iMP modules are three digits: 3E0

Configurations that use MP modules should be replaced with an iMP equivalent as soon as possible. Please contact your account team for more information.

Please note, the hybrid configurations with MP modules will not be updated to IEC 62368.

Best Regards,
